

State of Idaho Psoriasis Issue Brief

Psoriasis and psoriatic arthritis are chronic, life-altering and often debilitating conditions that have a serious physical and emotional impact on the individuals and families affected by them. The National Psoriasis Foundation respectfully calls upon Congress to help improve the quality of life of those with psoriasis and psoriatic arthritis by ensuring access to quality care, increasing awareness and understanding of these diseases, and boosting federal research efforts to hasten the discovery of a cure.

Psoriasis and the state of Idaho¹

According to the National Institutes of Health, as many as 7.5 million Americans have psoriasis and/or psoriatic arthritis.

The National Psoriasis Foundation estimates that in the state of Idaho as many as 34,000 adults live with psoriasis and/or psoriatic arthritis.

The average congressional district has as many as 17,000 adults living with psoriasis and/or psoriatic arthritis.

The National Psoriasis Foundation is headquartered in Oregon. Founded in 1968 by a small group of volunteers, the Foundation now employs 36 dedicated individuals. The Foundation serves more than one million people each year. For more information, please contact:
